DETAILED ACTION

This action is responsive to the amendment filed 11/16/2006 and submission filed 04-24-2007, which has been entered. Claims 1, 3-8, 13-17, 20-23, 27-28 and 30-31 are allowed.

Election/Restrictions

Examiner's Amendment

1. This application is in condition for allowance except for the presence of claims directed to an invention non-elected without traverse in papers 10-11-2005.

Accordingly, claims 24-26 have been cancelled.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: the prior art fails to anticipate or render obvious the combination of an idler pulley set forth in claims 1 and 23 and most significantly requires wherein the circumferential surface of said insert is coated with brass or zinc to fixedly adhere the tubular bearing carrier insert to the inner circumferential surface of the pulley body, the tubular bearing carrier insert being manufactured from a rigid material. In addition, the term consisting in the preamble of the claims limits the prior art to not more or less than what is being claimed, thereby narrowing the claims to no more than what is being claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
